FSCM (Full-Spectrum Causal Manipulation)

Thousandfold Karma

This document consists of two Karmic Type psychic abilities, note that this may not be the final version of Karmic Type psychic abilities. Frequent updates may be carried out for Karmic Type psychic abilities as we progress our psychic journey.

Name of ability	FSCM (Full-Spectrum Causal Manipulation)
Type of ability	Karmic Type
Effect of ability	Allow its user to manipulate and modify causal chain of events. Precognition is just an add on for this ability.

### **Brief Descriptions of FSCM:**

Full-Spectrum Causal Manipulation (FSCM) is a psychic ability that goes beyond mere prediction. Instead of only foreseeing future events, FSCM enables its user to actively rearrange, modify and control the causal chain of events. This power allows one to alter the sequence in which events occur, thereby influencing outcomes in both the future and the past.

### **Rarity of FSCM:**

Ultra Rare

### **The principle of FSCM:**

#### **Block Universe Theory**

According to the block universe (or eternalism), time is viewed as a dimension similar to space—where past, present, and future all coexist. This perspective suggests that the causal order is not as rigid as commonly thought, opening theoretical room for reordering events.

#### **Causality as a Modifiable Framework**

FSCM is based on the concept that the chain of cause and effects is not fixed. Instead, it can be dynamically restructured by those who possess this ability.

#### **Quantum and Relativistic Underpinnings**

Theoretical interpretations of FSCM often invoke quantum mechanics (where observation can affect outcomes) and aspects of time in relativity, this theory suggests that time may not be strictly linear or immutable.

**Essence of FSCM:**

Based on the Block Universe Theory, FSCM are able to manipulate and extract detailed information from different causal chains.

**Highlights of FSCM:**

FSCM focuses more on manipulating, rearranging, and modifying the causal chain of events. Precognition is just an add on for this ability.

**Use cases of FSCM:****Preventing Disasters**

By reordering and modifying events, a user can stop all catastrophic incidents before they occur.

**Exploration of Alternate Timelines**

FSCM users could enable the study or creation of alternate timelines for research or experiential purposes.

**Precautions of FSCM:****Unintended Consequences**

Changing the causal chain might lead to unpredictable ripple effects, potentially causing greater harm than the intended correction.

**Temporal Paradoxes**

FSCM might create paradoxes (such as the classic "grandfather paradox"), under certain critical conditions.

Name of ability	Thousandfold Karma
Type of ability	Karmic Type
Effect of ability	Allow its users to magnify and reflects karmic consequences like a mirror, particularly in response to negative or malicious actions

### **Brief Descriptions of Thousandfold Karma:**

Thousandfold Karma is a metaphysical principle and supernatural ability that magnifies and reflects karmic consequences like a mirror, particularly in response to only negative or malicious actions. It acts as a self-regulating force, ensuring that harmful intentions and deeds return to their origin with amplified intensity.

### **Rarity of Thousandfold Karma:**

Ultra Rare

### **The principle of Thousandfold Karma:**

Thousandfold Karma operates on the idea that all actions generate energetic imprints in the universe, which eventually return to the source. Unlike traditional karma, which unfolds over time and in varying degrees, this concept suggests an immediate and exponentially intensified karmic response, often magnified a thousandfold.

**Reflection:** Negative energy sent toward the wielder, or the environment is mirrored back to its origin.

**Amplification:** The energy does not merely return; it is magnified, ensuring a stronger impact.

**Instantaneous or Delayed Reaction:** The effect may manifest instantly or accumulate before unleashing its full force.

### **Essence of Thousandfold Karma:**

Thousandfold Karma can manipulate and reflect bad energy. This ability actually consists of many different use cases, reflect is just one of the most common use cases of all.

## **Causal Resonance**

The universe maintains balance by amplifying and returning negative intentions or harm inflicted on others.

## **Energy Amplification**

The magnitude of the returning energy is proportional to the severity of the original deed but is intensified exponentially.

## **Highlights of Thousandfold Karma:**

This ability can not only reflect bad karmic energies, but it can also change the properties of bad energies.

## **Use cases of Thousandfold Karma:**

**Spiritual Protection:** Shields individuals from psychic attacks, curses, or negative intentions.

**Energetic Justice:** Ensures that malevolent entities or individuals experience the full weight of their actions.

**Reinforcing Ethical Behavior:** Serves as a deterrent, discouraging unethical conduct due to the risk of amplified backlash.

**Self-Defense Mechanism:** Acts as an automatic safeguard against harmful intentions.

**Remarkably, some advanced users can fuse the bad karmic energy to the other**

## **Quantum Karma Reflection (Subatomic & Consciousness-Level Impact)**

The principle could apply at the quantum level, where intent and observation influence reality.

If malicious thoughts or actions generate negative quantum vibrations, Thousandfold Karma might amplify and return these fluctuations, impacting the perpetrator's mental or even physical state.

This could lead to sudden, unexplained misfortunes or even shifts in reality for those who spread negativity.

## **Precautions of Thousandfold Karma:**

## **Potential for Unintended Consequences**

If misused or misunderstood, the user may inadvertently amplify and reflect their own negative energy.

### **Irreversibility**

Once set into motion, karmic magnification cannot be undone, potentially leading to overwhelming repercussions.

### **Balance and Emotional Control**

Strong emotions such as anger or revenge could inadvertently trigger unintended karmic magnifications.
